About TAITRA

Founded in 1970, TAITRA is Taiwan's foremost nonprofit trade promoting organization. Sponsored by the government and industry organizations, TAITRA assists enterprises to expand their global reach. Headquartered in Taipei, TAITRA has a team of 1,300 specialists and operates 5 local offices as well as 60+ branches worldwide. In conjunction with the Taiwan Trade Center (TTC), Taipei World Trade Center (TWTC), and Far East Trade Service (FETS), and supported by alliances with 500+ international affiliates, TAITRA has formed a global network dedicated to promoting world trade.

TAITRA's five local branch offices in Taoyuan, Hsinchu, Taichung, Tainan, and Kaohsiung provide services to companies outside metropolitan Taipei. Through these domestic offices, TAITRA is able to maintain close contact and interaction with local companies in their respective areas and provide direct and substantial services in areas such as feature trade promotion, business information, market seminars, on-the-job training, procurement meeting, meeting room rental, etc. Branch offices play vital roles in Taiwan Trade Shows coordination between Taipei headquarter and local companies, and invite buyers to visit local industries.

TAITRA Core Missions

- To assist Taiwanese businesses in developing international market.
- To collaborate closely with Taiwanese government in trade policy implementation.
- To provide business consultation service and connect international firms with Taiwanese partners.
- To assume the role of "Smart Integrator" - complement government policies, facilitate industry needs and develop new business opportunities around the world.

Autonomous AI Surveillance Drone

AiSeed's Autonomous AI Surveillance Drone is an AI-powered aerial platform designed for intelligence, surveillance, reconnaissance (ISR), border security, public safety, and critical infrastructure monitoring. Combining AI capabilities with autonomous flight, it supports real-time detection, target tracking, obstacle avoidance, and mission execution, helping operators enhance situational awareness and operational efficiency. Designed and manufactured in Taiwan with a secure, non-China supply chain, AiSeed provides reliable and flexible drone solutions for defense, government, and security applications.

Company Profile

Founded in 1978, Phoenixtec is a leading company provides ODM/OEM power solutions for Uninterruptible Power Supply (UPS) systems by nearly five decades experience and a global presence spanning more than 130 countries. Driven by innovation and sustainability, we design and manufacture high-quality power protection and energy management products. Our dedicated R&D team, in-house manufacturing capabilities and rigorous quality-control processes enable us to deliver reliable solutions, including a full range of UPS systems, micro data centers, PDUs, batteries and intelligent cards.

Our parent company, Eaton is widely recognized as one of the world's top three UPS players. As part of Eaton, Phoenixtec focuses on developing OEM/ODM partnerships that allow customers to bring products to market under their own brands while benefiting from the same R&D expertise, manufacturing processes, quality standards and core technology platforms.

Products

Uninterruptible Power Supply (UPS)

P-Bus 650-ISO/DA

Key features

- Built-in surge protector for reliable power quality
- Super fast charge disconnect for energy saving in IoTs
- HiD (High Definition) enables integration with built-in power management module (HDD, Hardware of Protection and Discharge)
- Switch output up to 8 pins
- Support large protection
- Support battery monitor and Support Safety easy replacement
- CE compliant

Typical application

Battery easy replacement

A. How to remove

Note: Follow manual for details and safety requirement.

HiD

HiD enables with 30S longer protection

- 3 stage protection only
- 3 stage protection with power lockout
